**MARYSVILLE GARDEN COTTAGES**

I still can't quite believe that I can run my accommodation business remotely.

The day I found Stephen Dunn from Leapin Digital Keys, was the day my business dreams came true.

I live on a farm approximately 9 Kms from our new accommodation business, Marysville Garden Cottages; I am also a Registered Builder and wish to keep working as a builder.

**Leapin Digital Keys** allows me to take bookings from anywhere that has mobile reception. If a potential guest arrives unannounced at our unmanned cottages, they could either check themselves in through our website and receive a receipt and a door code within 15 minutes after their credit card payment has been approved, or they may wish to phone us, where we collect their details, enter them in to our tablet or PC which automatically generates a receipt as an email and a door code as an SMS to them.

The guest check in can be totally private, my cleaners can monitor the booking calendar so they know when and which rooms they have to clean. I can stay on the farm or on the building site. There is time saved by us by not having to deliver keys to guests or the hassle of losing keys or changing locks.

This is a world first, and as the owner/operator of **Marysville Garden Cottages** we are so proud to be the first to adopt this new, ingenious, money saving, innovation.

Regards Anthony Slot
